EDUCATION

American University, Kogod School of Business — **Washington D.C., USA**
MS in Business Analytics & AI — *May 2027*
GPA: 4.00

National University of Córdoba, School of Economic Sciences — **Córdoba, Argentina**
Dual Degree - Bachelor of Science in Economics — *September 2024*
GPA: 3.67

University of Murcia, School of Economics and Business — **Murcia, Spain**
Dual Degree - Bachelor of Science in Economics — *September 2024*
GPA: 3.67
Awarded **"Matricula de Honor"** (granted to up to 5% of the students in the class)

SPORTS ANALYTICS PROJECTS

American University Men's Basketball Team — **Washington D.C., USA**
Expected Points Dashboard (R Shiny) — *October - November 2026*

- Developed an interactive R Shiny dashboard to analyze 2,500+ basketball shots, generating team- and player-level expected-points estimates across shot zones, shot types, and defensive contest levels
- Reduced coaches' shot-analysis time by 67% using interactive heatmaps, KPIs, and player-to-team comparisons

American University — **Washington D.C., USA**
Soccer Expected Goals (xG): Shot Analysis and Machine Learning — *October 2026 - Present*

- Built a Python pipeline for 380 EPL matches, engineered shot-level spatial features and produced a reproducible report
- Currently evaluating logistic regression, KNN, classification trees, and neural networks through cross-validation to assess whether more flexible models improve expected goals (xG) prediction

INTERNSHIPS & WORK EXPERIENCE

American University, Kogod School of Business — **Washington D.C., USA**
Graduate Teaching Assistant, Business Analytics — *March 2026 – Present*

- Led weekly office hours for 20+ students, providing hands-on instruction in R programming including data wrangling, statistical analysis, and visualization to reinforce course concepts and improve assignment performance

Office of Career & Professional Development, Washington College of Law — **Washington D.C., USA**
Graduate Data Entry Assistant — *January 2026 – Present*

- Managed and categorized 80-100 weekly job postings using CareerLink database tools, streamlining access for 400+ law students and reducing average search time by 20%
- Reviewed and formatted postings according to guidelines, increasing consistency and readability by 20%

Quantex LLC — **Córdoba, Argentina**
Financial Operations Analyst — *March – June 2025*

- Managed 20+ client relationships and 1,000+ weekly transactions totaling $1.3B, ensuring regulatory compliance
- Developed daily and weekly reports using Python, R Markdown, and LaTeX to track client portfolios and transactions, monitoring trading activity and risk exposure across accounts

Grupo Vihotec European Holding S.L. — **Murcia, España**
Data Analyst Intern — *October 2023 – January 2024*

- Leveraged analytical and problem-solving skills to conduct data quality audits on 30,000+ records using Python and Excel, identifying and correcting 150+ issues to achieve 98% data accuracy and reduce discrepancies by 25%
- Developed and automated weekly operational reports using Python, R, and LaTeX, eliminating 8 hours of manual work per week and increasing team productivity by 20%

National University of Córdoba – Institute of Economics and Finance — **Córdoba, Argentina**
Research Assistant — *March 2022 – September 2023*

- Applied analytical and thinking skills to conduct statistical and econometric analysis on 5,000+ observations using R and Stata, supporting 100% of empirical conclusions for research papers
- Presented research findings through visualizations and detailed reports, reducing stakeholder review time by 35%

SKILLS AND LANGUAGES

Technical skills: Python (Pandas, NumPy, Scikit-learn), R (tidyverse, ggplot2, Shiny), SQL, Tableau, Power BI, Quarto, R Markdown, Stata, Jupyter, Git, GitHub, Google Cloud Run, Model Context Protocol, Microsoft Office, and VS Code

Languages: Spanish (Native) and English (C2 level)
